

This map illustrates the proposed Conservation Area boundary for the area around the University of Lincoln, Lincoln. The map is overlaid with various colored areas and symbols indicating key features and impacts.

KEY

- Key Historic Buildings:** Indicated by blue shaded areas.
- Buildings and land which have a negative impact:** Indicated by brown shaded areas.
- Landmark:** Indicated by an orange star symbol.
- Nodes:** Indicated by dashed black circles.
- Key Views:** Indicated by black arrows.
- Key Open Spaces:** Indicated by green hatched areas.
- Key Trees/Tree Groups:** Indicated by green circular symbols with radiating lines.
- Conservation Area Boundary:** Indicated by a red line.

The map shows the University of Lincoln campus, including the main building complex, and surrounding areas. Key historic buildings are highlighted in blue, while areas with negative impact are in brown. Landmarks are marked with orange stars, and nodes are shown as dashed circles. Key views are indicated by black arrows. Green hatched areas represent key open spaces, and green circular symbols represent key trees or tree groups. The red line delineates the proposed Conservation Area boundary.
